Russia is quite content with what she has got. What she has she wishes time to develop. "Recent German communications have been much more moderate and have made the possibility of peaceful negotiations much better. Why, what would our position have been according to the first ideas? We should have been called upon to place ourselves in the position of public executioners. How could we accept that? None of the powers is at war with China. Why, then, should there be any talk of taking away territory from her?

STRIKERS FEAR A PLOT. Suspect Attempt to Break up the Miners.

Wilkesbarre, Pa., Oct. 19 .- The strike leaders here are growing suspicious that there is some kind of an agreement between the coal operators by which they expect to break up the miners. The offer of the Reading company and the opposition to the same upon the part of the other companies is something the labor leaders cannot understand. At a conference in Phila-delphia on Wednesday the Lehigh Val-ley agreed to the same terms as the Reading, so far as their Lehigh collieries were concerned, but the company re-fuses, so the strikers allege, to make the same concessions to their employees in the Wyoming region.

The operators who participated in the conference at Scranton on Thursday say they are acting in good faith.

It is asserted that Morris also had designs upon the life of W. J. Brimson, general manager of the Kansas City & Southern railroad, whom Morris, it is alleged, had enticed to this city by means of a telegram purporting to have been signed by Gates, but which he himself had sent. Manager Brimson arrived at the Grand Pacific hotel in accordance with the appointment in the telegram Failing to find Mr. Gates, he called upon him in his office in the Rookery building. After a hasty consultation the two men decided that Morris originated the scheme, both having received threatening letters from him.

Morris was captured near the offices of the Iliinois Steel company, in the Rookery building. He was formerly in the compley of Gates and maintains that the latter owes him \$50,000.

After disarming Morris the policemen took him to the Central station, where he was locked up.

Morris acknowledged that he intended to collect an alleged debt aggregating \$50,000 from Gates and Brimson at the point of his fevolver.

Morris declared that he was authorized by Gates and Brimson to expend certain sums of money in the furtherance of the Calumet & Blue Island railway.
